

# NEOCATE® SYNEO® INFANT CONTAINS MORE OF THE ELEMENTS OF BREAST MILK THAN ANY OTHER AAF\*

With prebiotics, probiotics, and nucleotides

Nutricia North America supports the use of breast milk wherever possible. Neocate® is a family of hypoallergenic, amino acid-based medical foods for use under medical supervision. Neocate Syneo Infant is indicated for the dietary management of cow milk allergy, multiple food allergies and related gastrointestinal and allergic conditions, including food protein-induced enterocolitis syndrome, eosinophilic esophagitis and gastroesophageal reflux. AAF = amino acid-based formula; scFOS = short-chain fructooligosaccharides; lcFOS = long-chain fructooligosaccharides. EleCare is a registered trademark of Abbott Laboratories. Alfamino is a registered trademark of Société des Produits Nestlé SA. Puramino is a trademark of Mead Johnson & Company, LLC. \*As compared to other amino acid-based infant formulas in the United States. †Prebiotic oligosaccharides are considered carbohydrates. **References:** 1. <https://static.abbottnutrition.com/cms-prod/abbottnutrition-2016.com/img/ElCare-%28for-Infants%29.pdf>.
